

Know Your Sustainability Score - ViridiScore™

Sustainability Performance, Measured

What It Does

ViridiScore™ evaluates sustainability performance using a structured, compliance-based scoring system. It turns operational actions into a clear, measurable result.

How It Works

- Identify what applies.
- Measure what was completed.
- Generate a percentage-based score.

What You Get

- ✓ Vendor / Entity Scorecards
- ✓ Event or Project Dashboard
- ✓ Clear Performance Insights

Why It's Different

Most tools measure effort.
ViridiScore™ measures execution.

The Result

From actions to answers. No assumptions. Just performance.

What mattered.

What was done.

The score.

If you can't measure it, you can't improve it.

1 Fill Out Risk Matrix

Complete one workbook
for each entity.

2 Review Entity Scorecards

Check each entity's results.

3 Combine in Master Dashboard

Merge all data into the dashboard.

4 Generate Report

Create your analysis summary.

Events | Construction | Operations | Vendors

Feedback isn't just reflection. It's direction.
